Let's Create Something Beautiful Together!

I began my journey in the beauty industry as an esthetician specializing in corrective skincare. After two years working in a salon environment performing skincare services I discovered my love for hair and I decided it was time to go back to school. While working towards my cosmetology license I began hands-on training working with textured hair and hair extensions and found my true passion within the industry.

I prioritize continued education and now hold multiple certifications for textured hair and hair extensions. Combining texture with extensions is something that carries over into my personal life from the salon. Being a curly girl myself I know the struggles we face in the salon and at home and I hope to provide you relief from any issues you are having. I'm also someone who loves to change their hair frequently so you will always see me with a different style of hair extensions.

I love being behind the chair with my clients and I also love educating. I am very lucky to be an educator in the industry working with brands at the forefront of innovation and helping stylists to grow and expand their knowledge as well.
